About Me

Persuing B.Tech IT in LICET. Dynamic junior developer with a strong foundation in IT and hands-on experience in project development. Skilled in Python, C, Figma, and web technologies, with a focus on UI-driven and embedded systems. Proven ability to contribute to real-world solutions, including a hospital management app and smart incubator system. Strong management, critical thinking, and leadership skills support effective teamwork and innovation.

EXPERIENCE

Inventory Management-Mini project	02/2025 – 03/2025
Developed a Shop Inventory Management System using Node.js and MySQL to manage products, stock levels, and sales efficiently. Implemented CRUD operations and real-time inventory tracking with secure user authentication. Streamlined inventory control to improve accuracy and business workflow.	
Inplant training at tn milk fedration	07/2024 – 07/2024 ambattur
smart incubator development project, Pattrai workshop	01/2024 – 03/2024
designed a program and working model to monitorize premature infants.
